FRICION REDUCING
LUBRICANT

FOR

CRANES

AERIAL LIFTS

FORKLIFTS

TELE-HANDLERS

TELESCOPING BOOM
HYDRAULIC
EXCAVATORS

LUBE-A-BOOM™ LUBRICANT reduces friction... It is a specially formulated synthetic lubricant containing TEFLON®* particles held in suspension which lasts longer and outperforms conventional petroleum based greases.

LUBE-A-BOOM™ LUBRICANT goes further and stays on longer providing better protection of boom sections and extends wear pad life.

LUBE-A-BOOM™ LUBRICANT can be used for other lubrication points on machine.

*Trademark of DuPont

Benefits:

- Water and saltwater resistance
- Remains free flowing in temperatures as low as -40°F
- Protects against rust and corrosion
- Smoother surface contact between wear pads and boom sections
- Compatible with most conventional lubricants
- Reduces friction and improves wear pad life
- Reduces maintenance intervals
- Non-toxic, protecting the user and environmentally friendly
- Outlasts petroleum based greases
- Won't run or drip in temperatures up to 300°F
- Formulated for telescoping booms

Warning: Avoid eye contact. For eye contact, flush with water for 15 minutes. For skin contact, wash with soap and water. For medical emergency contact 1-800-535-5053. See Material Data Sheet.
